

Money-Earning Group Agreement

Troop/Group Money-Earning refers to activities brainstormed, organized and carried out by Girl Scouts - with guidance from their supporting adults - to earn money for participation in Girl Scout activities. This agreement ensures all Girl Scouts and supporting adults have a clear understanding of expectations related to participation in the money-earning activity.

Girl Scouts should consider the following questions and mutually determine appropriate goals and outcomes related to the activity/travel the money is being earned for. Ensure all Girl Scouts, parents/guardians and advisors sign this agreement prior to the troop/group beginning each money-earning activity. Keep the group agreement with Troop records.

SET A GOAL: How much money does the troop/group need to raise?

DISTRIBUTION OF EARNED FUNDS: How will money be tracked – range of hours, range of revenue?

TIMELINE: How long does the troop/group have to plan, coordinate and execute the event?

What happens if a Girl Scout or supporting adult leaves the troop/group prior to the activity/travel the money is being earned for?

What happens if a Girl Scout joins the troop/group after planning and coordination of the activity/travel has started?

What happens if a Girl Scout can't attend the event after helping plan and coordinate?

What happens if a Girl Scout can't attend the troop/group activities and raises funds on her own?

What are next steps if the troop/group doesn't raise enough funds?

Additional questions if trip-specific money-earning:

For further guidance, review the [Travel Resources](#) and trainings on our website to assist you in filling out this form.

What advisors will go on the trip? Who decides this? To comply with safety ratios, troops are required to budget for Trip Advisors trip costs.

What happens if a parent/guardian wants to go on the trip? Is this permitted? Do they pay their own way?

What if someone must be sent home? Who pays for those expenses?
